APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations, and conditions: This permit is issued subject to all prior rights on the source and in conjunction with permit No. 7050, the same land being described in both filings. The amount of water herein granted is placed at 2 second feet so that such amount may be diverted and used in the event that there is a shortage in Big Cedar Creek, No. 7050. The applicant will be required, at the time of filing proof of beneficial use of water, to definitely segregate the areas of land which obtain water for irrigation purposes from each source described in these two filings. A substantial headgate and weir must be installed and maintained at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2 cubic feet per second.

Actual construction work shall begin on or before May 22, 1925

Proof of commencement of work shall be filed before June 22, 1925

Work must be prosecuted with reasonable diligence and be completed on or before May 22, 1926

Proof of completion of work shall be filed before June 22, 1926

Application of water to beneficial use shall be made on or before

May 22, 1930

Proof of the application of water to beneficial use must be filed with State Engineer on or before June 22, 1930.
